Rough-terrain trucks - Operator training - Content and methods

越野叉车 操作者培训 内容和方法

(English Translation)

Issued on: November 27, 2023

Implemented on: June 1, 2024

**Issued by: State Administration for Market Regulation, China National
Standardization Administration**

Table of Contents

- Preface
- 1 Scope
- 2 Normative references
- 3 Terms and Definitions
- 4 Safe use of forklifts
- 5 Operator training and familiarity requirements
 - 5.1 General requirements
 - 5.2 Selection of trainer
 - 5.3 Practical (hands-on) training environment
- 6 Training content
 - 6.1 Training requirements
 - 6.2 Additional training requirements for rotary forklifts
 - 6.3 Additional training requirements for truck-mounted forklifts
 - 6.4 Additional training requirements for suspended free swing loads
 - 6.5 Additional training requirements for use of non-integrated Personnel Work Platforms (PWP)
 - 6.6 Additional training requirements for using remote controls
 - 6.7 Familiarity
- 7 Training Management
 - 7.1 Test
 - 7.2 Retraining
 - 7.3 Retest
 - 7.4 Record keeping
 - 7.5 Training verification

Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part 1: Structure and Drafting Rules of Standardization Documents" Drafting:

This document is equivalent to ISO 23676:2020 "Contents and Methods of Off-Highway Forklift Operator Training":

Please note that some content in this document may be subject to patents: The publisher of

this document assumes no responsibility for identifying patents:

1 Scope

This document gives information for preparing training materials and administering training for operators of rough-terrain forklifts (hereinafter referred to as "forklifts"):

This document applies to forklifts as defined by ISO 10896-1, ISO 10896-2 and ISO 20297-1:

This document applies to the suspension of swing loads covered by ISO 10896-4, and to non-integrated personnel covered by ISO 18479-1:

use of the platform:

This document does not include authorization or training requirements related to specific workplaces (e.g. site rules, emergency procedures, work safety systems):

2 Normative reference documents

The contents of the following documents constitute essential provisions of this document through normative references in the text: Among them, the dated quotations for undated referenced documents, only the version corresponding to that date applies to this document; for undated referenced documents, the latest version (including all amendments) applies to this document:

ISO 10896-1 Safety requirements and verification for rough-terrain trucks Part 1: Telescopic forklifts (Rough-terraintrucks-Note: GB/T 35205.1-2017 Safety requirements and verification for off-road forklifts Part 1: Telescopic forklifts (ISO 10896-1:2012, IDT) ISO 10896-2 Safety requirements and verification for rough-terrain trucks Part 2: Rough-terraintrucks-Safety Note: GB/T 35205.2-2023 Safety requirements and verification for off-road forklifts Part 2: Rotary forklifts (ISO 10896-2:2016, IDT) ISO 10896-4 Safety requirements and verification for off-road forklifts Part 4: Additional requirements for telescopic forklifts with suspended freely swingable loads ISO 11525-1 Requirements for safe use of rough-terrain forklifts Part 1: Telescopic handler forklifts (Rough-terraintrucks-Safe use requirements-Part 1: Variable-reachtrucks) Note: GB/T 38055.1-2019 User requirements for off-road forklifts Part 1: General requirements (ISO 11525-1:2012, IDT) ISO 11525-2 Requirements for safe use of rough-terrain forklifts Part 2: Slewing telescopic forklifts (Rough-terraintrucks-ISO 11525-4 User requirements for rough-terrain forklifts Part 4: Additional requirements for telescopic forklifts with suspended, freely swingable loads Note: GB/T 38055.4-2021 User requirements for off-road forklifts Part 4: Additional requirements for telescopic arm forklifts with freely swingable loads (ISO 11525-4:2016, IDT) ISO 18479-1 Non-integrated personnel work platform for rough-terrain forklifts Part 1: Design, safety requirements and verification (Rough-verification) Note: GB/T 42157.1-2023 Non-integrated personnel working platform for off-road forklifts Part 1: Design, safety requirements and verification (ISO 18479-1:
