

ICS 75.180.10
CCS E 94

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 43327.6-2023

**Petroleum and natural gas industries - Specific requirements
for offshore structures - Part 6: Marine operations**

石油天然气工业 海洋结构物特殊要求 第6部分：海上作业

(English Translation)

Issued on: November 27, 2023

Implemented on: March 1, 2024

**Issued by: State Administration for Market Regulation, China National
Standardization Administration**

Table of Contents

Preface	
Introduction	
1 Scope	
2 Normative references	
3 Terms and Definitions	
4 Symbols and abbreviations	
4.1 Symbol	
4.2 Abbreviations	
5 General	
5.1 Requirement	
5.2 Jurisdiction	
5.3 HSE Plan	
5.4 Risk Management	
5.5 Job Safety Analysis	
5.6 Environmental Impact Study	
5.7 Operation, qualification, work and safety training	
5.8 Incident reporting	
5.9 Personnel tracking	
5.10 Approval from Government Agencies	
6 Organization, documentation and planning	
6.1 General	
6.2 Organization and communication	
6.3 Quality Assurance and Management Procedures	
6.4 Technical procedures	
6.5 Technical Documentation	
6.6 Certification and documentation	
6.7 Systems and Equipment	
7 Marine meteorology and seismic requirements	
7.1 General	
7.2 Weather restricted and weather unrestricted operations	
7.3 Meteorological conditions	
7.4 Meteorological acceptance criteria	

- 7.5 Climate window
- 7.6 Job duration
- 7.7 Marine meteorological forecast
- 7.8 Earthquake
- 8 Weight Control
 - 8.1 General
 - 8.2 Weight control level
 - 8.3 Margin for Level A
 - 8.4 Weight and center of gravity constraints
 - 8.5 Weight Control Audit
 - 8.6 Dimensional control
- 9 Stability
 - 9.1 Overview
 - 9.2 General requirements
 - 9.3 Stability calculation
 - 9.4 Complete stability
 - 9.5 Damage stability
 - 9.6 Single vessel transport
 - 9.7 Multi-ship transport
 - 9.8 Classified ships
 - 9.9 Self-floating structure
 - 9.10 Shipment operations
 - 9.11 Watertight integrity and temporary closures
 - 9.12 Tilt test
- 10 Ballast operations
 - 10.1 Overview
 - 10.2 Ballast system
 - 10.3 Damage protection
 - 10.4 Protection measures against water intrusion under damaged conditions
 - 10.5 Control and indication systems
 - 10.6 Pump
 - 10.7 Valve arrangement
 - 10.8 Exhaust system
 - 10.9 Air Cushion System Capabilities
 - 10.10 System Test

11 Shipment

11.1 Overview

11.2 Classification of shipment

11.3 Loaded structures

11.4 Site and Marina

11.5 Barge

11.6 Connecting beams, slideways and sliding shoes

11.7 Temporary mooring systems

11.8 Bottom loading

11.9 Pumps and ballast

11.10 Shipment by trailer, SPMT or hydraulic skid

11.11 Traction system design, redundancy and backup

11.12 Floating to semi-submersible vessel or barge

11.13 Barge Recovery and Shipment Fixing

11.14 Tugboat

11.15 Management and Organization

11.16 Shipping Manual

12 Tow

12.1 Overview

12.2 General requirements

12.3 Towing power requirements, fleet composition and towing arrangements

12.4 Tow 54 out of dry dock

12.5 Offshore towage

12.6 Maritime towage

12.7 Dry towing or towing on heavy barges

12.8 Towage Manual

13 Temporary mooring and offshore positioning operations

13.1 General

13.2 Environmental conditions

13.3 Determination of mooring response

13.4 Mooring line design

13.5 Anchor design

13.6 Accessory design

13.7 Mooring line component design

13.8 Clearance under extreme conditions

- 13.9 Mooring tension
- 13.10 Other positioning methods
- 14 Floating construction and outfitting
 - 14.1 General
 - 14.2 Structural strength and stress
 - 14.3 Building fleet
 - 14.4 Welding
- 15 Upper module float installation
 - 15.1 Overview
 - 15.2 Environmental considerations
 - 15.3 Structural considerations
 - 15.4 Clearance
 - 15.5 Upper module lowering guide system
 - 15.6 Factors to consider in assignments
 - 15.7 Floatover Manual
- 16 Pre-arranged mooring system
 - 16.1 General
 - 16.2 Installation plan
 - 16.3 Installation of towed embedded anchor
 - 16.4 Flat anchor installation
 - 16.5 Suction anchor installation
 - 16.6 Anchor pile installation
 - 16.7 Gravity Anchor Installation
 - 16.8 Mooring system connections
 - 16.9 Chain
 - 16.10 Wire rope
 - 16.11 Synthetic fiber rope
 - 16.12 Tension leg platform tendon
 - 16.13 Mooring Installation Manual
- 17 Offshore installation operations
 - 17.1 Requirement
 - 17.2 Installation location
 - 17.3 The effects and corresponding movements of floating structures
 - 17.4 Systems and Equipment
 - 17.5 Slip launching
