Standards for the evaluation of students' athletic ability in table tennis courses

1 Scope

GB/T 43984-2024 is the Chinese national standard for evaluating a student's athletic ability in a table tennis course, one of the family of school sport assessment standards issued by the Ministry of Education. Table tennis is the sport China teaches most systematically, and the standard reflects that: it fixes a six-grade ladder running from primary school to university, with the attainment requirements for each grade and the prescribed tests by which a student is judged to have reached it. It sets the classification and the attainment requirements, then the assessment for each of the six grades in turn, giving the test items, the equipment and setup, the procedure and the scoring, progressing from the basic strokes and multiball drills of the lower grades through the service, receive and footwork elements to the tactical and match play requirements of the highest. Because both the items and the criteria are national, a grade means the same thing in any Chinese school. It took effect on 28 May 2024.

This document stipulates the classification and achievement requirements of the athletic ability levels of table tennis students, and describes the evaluation methods for each level. This document is applicable to the assessment of table tennis ability of students in primary school, junior high school, high school and university.

2 Normative references

The contents of the following documents constitute the essential clauses of this document through normative references in this document. For referenced documents without a date, only the version corresponding to that date applies to this document; for referenced documents without a date, the latest version (including all amendments) applies to This document.

GB/T 20045 40mm table tennis ball

GB/T 32597 Safety, performance requirements and test methods for table tennis tables

3 Terms and definitions

The following terms and definitions apply to this document.

3.1 The comprehensive performance formed by students in table tennis course learning, practice and competition activities, using skills such as serving, pushing, blocking, and looping to complete specific tasks.

- 3.2 forehand attack An offensive technical move for a forehand flat shot.
- 3.3 Backhand push A technical move for hitting the ball flat with the backhand.
- 3.4 Backhand attack An offensive technical action for backhand flat hitting.
- 3.5 An offensive technique using a penhold racket to hit the ball with the back of the hand.
- 3.6 Chop A basic technical move for returning a backspin ball close to the table.
