|-------------------------------------------------------------------------------------------------------------------------------|-----|
| Preface .....                                                                                                                 | III |
| 1 Scope .....                                                                                                                 | 1   |
| 2 Normative references .....                                                                                                  | 1   |
| 3 Terms and Definitions .....                                                                                                 | 2   |
| 4 General Principles .....                                                                                                    | 3   |
| 5 Data Collection .....                                                                                                       | 3   |
| 6 Transmission Communication .....                                                                                            | 6   |
| 7 Data Processing .....                                                                                                       | 6   |
| 8 Data evaluation .....                                                                                                       | 7   |
| Appendix A (Informative) Data Collection Points Table .....                                                                   | 9   |
| Appendix B (Informative) Data Collection Requirements for Typical Intelligent<br>Instruments of Wind Turbine Generators ..... | 36  |
| Appendix C (Informative) List of Data Collected by Data Collection System .....                                               | 37  |
| References .....                                                                                                              | 38  |

## Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting is required.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed by the China Machinery Industry Federation.

This document is under the jurisdiction of the National Technical Committee for Standardization of Wind Power Generation (SAC/TC 50).

This document was drafted by: China Huaneng Group Co., Ltd., Xi'an Thermal Engineering Research Institute Co., Ltd., Guohua Energy Investment Co., Ltd., Beijing Beijing Jinfeng Huineng Technology Co., Ltd., Beijing Jianheng Certification Center Co., Ltd., Beijing Huaneng Xinrui Control Technology Co., Ltd., CSSC Haizhuang Wind Power Co., Ltd.

Power Co., Ltd., China Three Gorges Corporation, Shanghai Electric Wind Power Group Co., Ltd., CRRC Zhuzhou Electric Locomotive Research Institute Co., Ltd. Wind Power Division, CRRC Shandong Wind Power Co., Ltd., Mingyang Smart Energy Group Co., Ltd., Harbin Electric Wind Energy Co., Ltd., Yunda Energy Technology Group Co., Ltd., Guodian

Guangdong Branch, Shaanxi Zhongke Qihang Technology Co., Ltd., Oriental Green Energy (Hebei) Co., Ltd., China Agricultural Machinery China Academy of Chemical Science Hohhot Branch Co., Ltd., Beijing Qianyuan Wind Power Technology Co., Ltd., China Quality Certification Center, China Power Construction Group Hebei Electric Power Survey and Design Institute Co., Ltd., Wuhan University of Technology, Zhixin Energy Technology Co., Ltd., Beijing Dongrun Environmental Energy Technology Co., Ltd. Ltd.

The main drafters of this document are: Li Lailong, Li Guoqing, Lin Sheng, Chu Xiaoguo, Shi Mingliang, Yan Jiahui, Bian Qiying, Zeng Fanchun, Duan Shengmeng, Ma Li, Du Dong, Hu Kaikai, Zhang Bingquan, Liu Jinqiao, Zeng Xingguo, You Yunhan, Zhao Bing, Li Hantao, Na Hongyu, Jiang Ben, Wang Xiaoning, Wang Jianbin, Weng Cunxing, Jun Liu, Zhijie Wang, Yue Duan, Yan Zhuang, Peng Li, Jie Wang, Jingxian Liu, Chen Chen, Xiaohong Huang, Wei Tian. Wind power generation system Technical Specifications for Data Collection of Smart Wind Farms

## 1 Scope

This document specifies the basic principles, scope, transmission and communication, data processing and evaluation methods for data collection in smart wind farms.

This document is applicable to grid-connected wind farms.
