Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part

1. Structure and drafting rules for standardization documents" Drafting is required. Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents. This document was proposed by the China Light Industry Federation. This document is under the jurisdiction of the National Technical Committee for Standardization of Hair Products (SAC/TC 304). This document was drafted by: Donghua University, Qingdao Haisenlin Hair Products Group Co., Ltd., Henan Rebecca Hair Products Co., Ltd. Co., Ltd., Henan Ruimei Real Hair Co., Ltd., Anhui Difa Hair Products Co., Ltd., Shandong Zhongkang Guochuang Advanced Printing and Dyeing Technology Research Institute Co., Ltd. Jifa Group Co., Ltd., Qingdao Jiumei Hair Products Co., Ltd., Shanghai Quality Supervision and Inspection Technology Research Institute, Henan Province Metrology Standards and Product Quality Inspection and Testing Center, Henan Fiber Textile Product Quality Monitoring and Inspection Institute, Xuchang Product Quality Inspection and Research Center, Qingdao Product Quality Inspection Institute, and Zhongyuan University of Technology. The main drafters of this document are. Li Weidong, Xu Hong, Sun Luzheng, Zhang Tianyou, Wang Huizhen, Li Jinling, Han Peng, Liu Yongjie, Kong Baoyun, Meng Qinglei, Zhan Bo, Zhang Weiqiang, Shen Yueming, Zhou Zhaoyi, Chen Weizhe, Han Wenxuan, Hua Mingli, Huang Shuiping, Zhou Lijuan, Zou Wenjing, Yu Jia and Chai Jinyan.

Hair product maintenance graphic symbols

1 Scope

China's national standard for the care graphical symbols used on hair products. The products in question are wigs, hairpieces and hair extensions, and the symbols do for them what the familiar washing symbols do for garments: convey washing, drying, heat and styling instructions in a form that survives translation. The need is specific to the material. Human hair, heat-resistant synthetic fibre and ordinary synthetic fibre look similar and behave completely differently: human hair takes a curling iron and colouring, heat-resistant fibre takes a limited temperature, and ordinary synthetic fibre melts at the temperature of a hair dryer. A customer who treats one as another destroys the product irreversibly and, more seriously, may not realise it is possible. China manufactures the overwhelming majority of the world's hair products, so a symbol set standardised here is effectively the international one.

This document establishes the symbol system used in hair product labeling and describes the use of these symbols in hair product labeling. method. This document applies to the design of logos and labels for hair product maintenance graphic symbols.

2 Normative references

This document has no normative references.

3 Terms and Definitions

There are no terms or definitions that require definition in this document.

4 Symbols

4.1 Sorting The graphic symbols and their descriptions are shown in Table 1. Table

1 Graphic symbols and their descriptions Description of numbered graphic symbols 1

1 Only wide-tooth comb is allowed 1

2 Only air cushion combing is allowed 1
