Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting is required.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed by China Light Industry Federation.

This document is under the jurisdiction of the National Technical Committee for Standardization of Plastic Products (SAC/TC 48).

This document was drafted by: Gongyuan Co., Ltd., Zhejiang Weixing New Building Materials Co., Ltd., Aikang Enterprise Group (Zhejiang) Co., Ltd., Gudi Technology Co., Ltd., Taizhou Huangyan District Metrology and Product Quality Safety Testing Institute, Jiangsu Shuangteng Pipe Industry Co., Ltd.

Co., Ltd., Jiangsu Huasu New Building Materials Co., Ltd., and China Wuzhou Engineering Design Group Co., Ltd.

The main drafters of this document are: Huang Jian, Shao Huibin, Yang Xingyue, Li Xianmei, Xia Chunyu, Li Guangzhong, Yang Jianguo, Sun Huali, Wang Yaru.

Plastic check valve for pollution prevention of building drainage pipe system

1 Scope

This document specifies the materials, design, performance and performance of plastic check valves (hereinafter referred to as "check valves") for anti-pollution use in building drainage pipe systems.

It describes the requirements for performance, inspection rules and marking, packaging, transportation, storage, etc., and describes the corresponding test methods.

This document applies to the manufacture and inspection of check valves used to prevent

pollution in plastic drainage pipe systems in buildings.

Note. The purchaser is responsible for selecting this product appropriately based on its specific application requirements and in combination with relevant laws, regulations, standards or specifications.
