3 Terms and Definitions

The terms and definitions defined in GB/T 36729 and the following apply to this document.

3.1 theater

A performance venue that forms an audience-performance relationship, where the stage and stands are permanent fixed facilities and have basic facilities for audience and performance and a basic stage system.

Note 1. Basic facilities for viewing performances include the stage and stands.

Note 2. The basic stage system includes the stage equipment system and construction equipment system necessary for the performance, such as stage lighting, stage sound, stage machine. The system consists of professional equipment such as machinery and stage management, building equipment systems such as power systems, ventilation systems, water supply and drainage systems, HVAC systems, security systems and fire protection system.

Note 3. Places that are not set up or configured for performances and only have some of the functions of a theater are not theaters, such as auditoriums, lecture halls, and studios.

Note 4. This document does not include new types of performance spaces.

Note 5. Excluding small theaters.
