Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting is required.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document is proposed and coordinated by the Ministry of Commerce of the People's Republic of China.

This document was drafted by: Wuxi Xinsanzhou Recycling Resources Co., Ltd., China Materials Recycling Association, Huzhou Meixinda Circular Industry Development Co., Ltd.

Co., Ltd., Wuhan University of Technology, Wuxi Suguang Auto Parts Technology Co., Ltd., China Railway Materials Resources Technology Co., Ltd., Jiangsu Fenghuo Digital Technology Co., Ltd., Hubei Longzhong Laboratory.

The main drafters of this document are: Qin Xunpeng, Jiang Bolun, Xu Junxiang, Yu Keli,

Cui Yan, Luo Yan, He Ruqiu, Fang Mingkang, Shen Yong, Wu Qiang, Wu Mengwu, Bao Xudong, Yamazhong, Huang Bin, Yan Peige, Hu Zeqi, Liu He, and Liu Kexin.

Technical specifications for disassembly of recycled parts from scrapped motor vehicles

1 Scope

This document specifies the overall requirements, process flow, operation requirements and quality assurance for the disassembly of recycled parts from scrapped motor vehicles, and describes the corresponding Verification method.

This document applies to the disassembly process of scrapped motor vehicle recycled parts by scrapped motor vehicle recycling and dismantling enterprises and recycled parts service enterprises.

2 Normative references

GB/T 26989

GB/T 34015.2

GB 50037-2013

GB/T 44728

3 Terms and Definitions

The terms and definitions defined in GB 22128, GB/T 26989 and the following apply to this document.

3.1 reused parts

Reusable parts removed from scrapped motor vehicles. [Source. GB 22128-2019, 3.11]

3.2 Dismantling

Dispose of scrapped motor vehicles harmlessly, dismantle the main assemblies and reusable parts, and disassemble or The process of flattening. [Source. GB 22128-2019, 3.4]

3.3 removal

The operation of separating and removing parts from an assembly such as a motor vehicle, assembly or component.

[Source. GB/T 26989-2011, 2.1.3, modified]

3.4 reused parts service enterprise

An organization engaged in the sales and after-sales service of recycled parts and possessing the technical service capabilities of disassembly, cleaning, and testing of recycled parts.

Note. Recycled parts come from scrapped motor vehicle recycling and dismantling companies.
