Conservation and captive breeding for wildlife-Crested Ibis

野生动物保护繁育 朱鹮

Issued on: October 26, 2024

Implemented on: February 1, 2025

**Issued by: State Administration for Market Regulation;
Standardization Administration of the PRC**

Table of Contents

Preface... III 1 Scope	1
2 Normative references	1
3 Terms and Definitions	1
4 Conservation and breeding program	2
5 Site Requirements	2
6 Personnel requirements	3
7 Feeding and Management	4
8 Breeding Management	6
9 Health Management	8
10 Population management	8
11 Safety Management	9
12 Transportation Management	9
13 Reintroduction into the wild	9
14 Investigation and Monitoring	10
15 File Management	10
Appendix A (Informative) Nutritional levels of chick feed and beef compound feed	11
Appendix B (Informative) Recommended feed formula and processing and preparation ..	12
Appendix C (Informative) Average daily feeding amount of Crested Ibis chicks	14
Appendix D (Informative) Crested Ibis Health Checklist	15
Appendix E (Information) Daily Statistics of Crested Ibis	16

Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting is required.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed by the State Forestry and Grassland Administration.

This document is under the jurisdiction of the National Technical Committee for Standardization of Wildlife Conservation, Management and Commercial Utilization (SAC/TC 369).

This document was drafted by: Qinling Giant Panda Research Center (Shaanxi Rare Wildlife Rescue Base), Shaanxi Hanzhong Crested Ibis National Natural Science Foundation Natural Reserve Administration, Shaanxi Institute of Zoology, Zhejiang Deqing County Ecological Forestry Comprehensive Service Center, Guangdong Chimelong Group Co., Ltd., Shaanxi Academy of Sciences.

The main drafters of this document are: Zhang Junfeng, Zhang Zhifeng, Lei Yinghu, Gao Genggeng, You Shanshan, Dong Rong, Wang Xiaoyu, Hou Jia, Qing Baoping, Jin Xuelin, Qiu Guoqiang, Hong Zuozhen, Zhang Qiang, Chen Yiping, Pan Guanglin, Li Dan, Xu Guanglan, Zhang Danhui.

Wildlife protection and breeding of crested ibis

1 Scope

This document specifies the conservation and breeding plan, site requirements, personnel requirements, feeding conditions and other requirements of the Crested Ibis (*Nipponia nippon*) under artificial breeding conditions.

Breeding management, breeding management, health management, population management, safety management, transportation management, release into the wild, investigation and monitoring, and file management, etc.

This document applies to the conservation and breeding management of Crested Ibis in zoos, wildlife parks and other conservation and breeding institutions.

2 Normative references

GB 5749

GB 13078

GB 18596

3 Terms and definitions

The following terms and definitions apply to this document.

3.1 Nestling

Individuals from hatching to 45 days old.

3.2 juvenile

Individuals aged 46 days to 1 year.

3.3 Sub-adult

Individuals from 1 year old to sexually mature.

3.4 Adult

Sexually mature individuals are usually no younger than 2 years old.

3.5 Bird parents

Crested ibis parents during the incubation period.
