Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting is required.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed and coordinated by the National Feed Industry Standardization Technical Committee (SAC/TC 76).

This document was drafted by: Zhejiang University, Wuhan Xihuayang Biotechnology Co., Ltd., Guangdong Yiduoli Biotechnology Co., Ltd., Shandong Longkote Enzyme Co., Ltd., Beijing Institute of Animal Husbandry and Veterinary Medicine, Chinese Academy of Agricultural Sciences, Agricultural Quality Standards and Inspection Measurement Technology Research Institute.

The main drafters of this document are: Qian Lichun, Zhan Zhichun, Xu Li, Li Yangyuan, Guo Qingwen, Wang Yuan, Xiao Zhiming, Liu Na, and Yu Dongyou.

General rules for enzyme preparations for feed

1 Scope

This document defines the terms and definitions of enzyme preparations for feed, specifies their technical requirements, describes the corresponding test methods, and specifies It also includes sampling, inspection rules, labeling, packaging, transportation, storage and shelf life.

This document applies to feed additive enzyme preparations and mixed feed additives containing only enzyme preparations.

3 Terms and definitions

The following terms and definitions apply to this document.

3.1 Feed enzyme preparation

It is produced and processed by microbial fermentation or extraction from animal or plant tissues, with or without the addition of carriers, and contains one or more A feed additive enzyme preparation having a chemically active enzyme, and a feed additive enzyme preparation prepared by mixing one or more of the above enzymes with or without a carrier product.
