Introduction

The WTO Agreement on Technical Barriers to Trade (TBT) is a The WTO/T BT Agreement and the Agreement on the Application of Sanitary and Phytosanitary Measures (WTO/SPS Agreement) give WTO members a Actively and fully exercising this right can help export companies and other stakeholders to track and understand the WTO's The members of the review committee shall be informed of the development of market access rules such as technical regulations, standards, and conformity assessment procedures, and make reasonable demands and voice their rights protection during the review period.

There is an opportunity to delay, reduce or even eliminate the impact of technical trade measures formulated by other WTO members on China's foreign trade.

losses and protect our country's economic interests and corporate interests to the greatest extent.

How to exercise this right and how to carry out the review of technical trade measures are the main challenges faced by export enterprises and other stakeholders.

Therefore, this document proposes a set of generally applicable technical trade measures in view of their diverse forms and complex technical requirements.

The review method can not only provide guidance for the review of technical trade measures, but also inspire export enterprises and other stakeholders in carrying out specific The review work is of great significance to further enhance the effectiveness of the technical trade measures review work. guiding significance.
