Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

Please note that some of the contents of this document may involve patents. The issuing

organization of this document does not assume the responsibility for identifying patents.

This document is proposed and coordinated by the China Federation of Supply and Marketing Cooperatives.

This document was drafted by: Tianjin Renewable Resources Research Institute of China National Supply and Marketing Cooperatives, China Renewable Resources Development Group Co., Ltd., GEM Co., Ltd., China Resources Recycling Association, China Automotive Data (Tianjin) Co., Ltd., Chery Commercial Vehicle (Anhui) Co., Ltd.

Company, China Re Resources (Ningxia) Co., Ltd., China Re Yuntu Technology Co., Ltd., China Re Yunhui (Ningxia) Environmental Protection Technology Co., Ltd., China Inspection Institute of Quarantine Science, China Automotive Technology and Research Center Co., Ltd., and China Automotive Research Institute Automotive Technology and Development (Tianjin) Co., Ltd.

The main drafters of this document are: Wu Xiaoyan, Zhao Bin, Xu Kaihua, Xing Hongwei, Cai Jiaohua, Zhang Tongzhu, Wang Pan, Tang Yanju, Pan Yonggang, Xue Jingyi, Du Tao, Cao Yang, Bai Tiejun, Chen Yiyan, Luo Xuhui, Xu Peng, Sun Yihang, Liu Jingrong, Wang Jia, Wang Fafu, Wang Cong, Pan Xubin, Ma Haofei.

Specifications for the construction of a trading platform for scrapped motor vehicle reuse parts

1 Scope

This document specifies the overall architecture, functions, performance requirements, data interface requirements, deployment environment requirements, and The verification method for the construction of a trading platform for recycled parts of scrapped motor vehicles is described based on the requirements and safety.

This document applies to the construction of a trading platform for recycled parts of scrapped motor vehicles.

2 Normative references
