Technical requirements for underground space information system construction

地下空间信息系统建设技术要求

Issued on: May 30, 2025 **Implemented on: September 1, 2025**

Issued by: State Administration for Market Regulation;
Standardization Administration of the PRC

Table of Contents

Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document is proposed by the Ministry of Natural Resources of the People's Republic of China.

This document is under the jurisdiction of the National Technical Committee for Geographic Information Standardization (SAC/TC230).

This document was drafted by: Zhengyuan Geographic Information Group Co., Ltd., Nanjing Institute of Surveying and Mapping Co., Ltd., Construction Comprehensive Hezhou Survey and Design Institute Co., Ltd., Nanjing Normal University, Kunming Urban Underground Space Planning and Management Office, Guangzhou Urban Planning and Surveying Institute Co., Ltd.

Xiamen Jingtu Information Technology Co., Ltd., Nanjing Civil Air Defense Office, Shanghai Survey and Design Institute (Group) Co., Ltd.

Co., Ltd., Beijing Institute of Surveying and Mapping, Underground Pipeline Survey and Engineering Institute of the Ministry of Natural Resources, Sichuan Guoce Information Technology Co., Ltd., Beijing Municipal Institute of New Technology Application, Chengdu

Institute of Surveying and Mapping, Jiangsu Map Information Technology Co., Ltd.

The main drafters of this document are: Li Xuejun, Chu Zhengwei, Geng Dan, Zhang Shuliang, Hou Zhiqun, Zhang Pengcheng, Qiao Zhiyong, Feng Bing, Huang Yongjin, Long Jiaheng, Yong Chen, Guanghua Chen, Kehui Liu, Yong Zhang, Jianrong Ju, Zhiqiang Xie, Jie Xu, Liangbo Pan, Wen Zhou, Yong Wang, and Yu Shen.

Technical requirements for the construction of underground space information system

1 Scope

This document specifies the overall requirements for the construction of underground space information systems, as well as system design, data organization and database construction, system implementation, system Technical requirements for acceptance, system operation and maintenance.

This document applies to the design, development, application and operation and maintenance of underground space information systems.
