Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part 1: Structure and Drafting Rules of Standardization Documents". Drafting.

This document was proposed by the National Information Technology Standardization Technical Committee (SAC/TC28).

This document was prepared by the National Technical Committee on Information Technology Standardization (SAC/TC28) and the National Technical Committee on Standardization of Radio, Television and Online Audiovisual Programs.

It is under the jurisdiction of the committee (SAC/TC239).

This document was drafted by: China Electronics Technology Standardization Institute, China Media Group, and the State Administration of Radio and Television.

Planning Institute, Academy of Broadcasting Science of the State Administration of Radio and Television, Huawei Technologies Co., Ltd., Tsinghua University, Beijing Zitiao Network Technology Co., Ltd.

Introduction

The issuing organization of this document draws your attention to the fact that declarations of compliance with this document may involve clauses 7.3, 7.4, 7.5, 7.6, 7.7, 7.9, 7.10, and 7.13.

Use of patents related to audio codec technology.

The issuing organization of this document makes no position on the authenticity, validity, or scope of the patent.

The patent holder has committed to the issuing authority of this document that he is willing to cooperate with any applicant on reasonable and non-discriminatory terms and conditions.

Next, negotiations will be held regarding patent licensing. The patent holder's statement has been filed with the issuing organization of this document, and related information can be found through the following... Contact information obtained.

Patent holder. Huawei Technologies Co., Ltd.

Address. Huawei Base A, Bantian, Longgang District, Shenzhen, Guangdong Province.

Please note that in addition to the patents mentioned above, some content in this document may still involve patents. The issuing organization of this document does not assume responsibility for identifying patents. responsibility.
