Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part 1: Structure and Drafting Rules of Standardization Documents". Drafting.

Please note that some content in this document may involve patents. The issuing organization of this document assumes no responsibility for identifying patents.

This document was proposed by the Ministry of Public Security of the People's Republic of China.

This document is under the jurisdiction of the National Technical Committee on Standardization of Security and Alarm Systems (SAC/TC100).

This document was drafted by the First Research Institute of the Ministry of Public Security, the Quality Inspection Center for Security and Police Electronic Products of the Ministry of Public Security, and the Video Image Information Intelligence Center.

National Engineering Laboratory for Data Analysis and Sharing Application Technology, Big Data Center of the Ministry of Public Security, Hangzhou Hikvision Digital Technology Co., Ltd.

Zhejiang Liyuan Technology Co., Ltd., Zhejiang Dahua Technology Co., Ltd., Huawei Technologies Co., Ltd., Zhejiang Uniview Technologies Co., Ltd., Zhongxing MicroTech Co., Ltd., Gosuncn Technology Group Co., Ltd., Xicheng Branch of Beijing Municipal Public Security Bureau, Sichuan Provincial Public Security Department, Changchun Municipal Public Security Bureau Security Bureau.

The main drafters of this document are: Zhang Xiang, Sun Lili, Lin Chuan, Zhuang Chaoming, Zheng Zheng, Lu Yuhua, Liu Jun, Zhang Yong, Yin Ping, Su Zhirui, and Wu Tong.

Public Security Video Image Information Integrated Application Service Interface Test Specifications

1 Scope

This document specifies the basic requirements and test content for the integrated application service interface testing of public security video image information, and describes the testing...

The method established the testing process and judgment criteria.

This document applies to the interface protocol of the public safety video image information integrated application system software in laboratory environments and engineering sites, and conforms to... Sexual test.

3.1 Terms and Definitions

The terms and definitions defined in GB/T 46344 (all parts), GB/T 46362-2025 and GB/T 46363-2025 apply to this standard. document.

3.2 Abbreviations

The abbreviations defined in GB/T 46344 (all parts), GB/T 46362-2025 and GB/T 46363-2025 apply to this document.

4 Basic Requirements

4.1 The integrated application service interface for public safety video image information should be provided by a testing organization with nationally recognized qualifications and within the scope of its accreditation capabilities. The structure was tested.

4.2 When the client submits a test application, the testing organization shall provide testing tools that can ensure the smooth conduct of the test and establish a corresponding testing environment.

5.1 Test Object

The test objects for interface protocol compliance testing include online video image information in the integrated application system for public safety video image information.

Acquisition equipment/systems (hereinafter referred to as "acquisition equipment/systems"), public safety video image information database (hereinafter referred to as "view library"), public
