## Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part 1: Structure and Drafting Rules of Standardization Documents". Drafting.

Please note that some content in this document may involve patents. The issuing organization of this document assumes no responsibility for identifying patents.

This document was proposed by the Ministry of Public Security of the People's Republic of China.

This document is under the jurisdiction of the National Technical Committee on Standardization of Security and Alarm Systems (SAC/TC100).

This document was drafted by: Science and Technology Information Bureau of the Ministry of Public Security, Zhejiang Liyuan Technology Co., Ltd., First Research Institute of the Ministry of Public Security, and Video Image Information Center.

National Engineering Laboratory for Intelligent Analysis and Sharing Application Technology, National Security and Alarm System Product Quality Inspection and Testing Center (Beijing), Zhejiang Dahua Technology Co., Ltd., the Third Research Institute of the

Ministry of Public Security, Zhejiang Uniview Technologies Co., Ltd., and Hangzhou Hikvision Digital Technology Co., Ltd.

The company, Beijing Zhongke Zhenguan Information Technology Co., Ltd., Oriental Netpower Technology Co., Ltd., Jinpeng Electronic Information Machinery Co., Ltd., and Zhongxing MicroTech Co., Ltd., and Gosuncn Technology Group Co., Ltd.

The main drafters of this document are: Zhao Yuan, Zhao Wendao, Sun Lili, Cheng Shasha, Li Hongmei, Liu Jun, Kong Weisheng, Qi Li, Wu Canyi, and Dang Qiaoqiao.

Du Yunpeng, Yin Ping, Zhang Qiulei, Wei Yi, Huang Qiangxiong, Li Dacheng.

Public Security Video Image Information Integrated Application System Technical Requirements

## 1 Scope

This document specifies the system structure, video image information objects, and unified identification code of the public security video image information integrated application system.

Technical requirements for code, application platform, view library, analysis system, acquisition equipment/system, etc.

This document applies to the overall planning, scheme design, and engineering implementation of integrated application systems for public safety video image information in various industries/departments.

Inspection and acceptance, operation and maintenance, and related software and hardware research and development, production and quality control.
