The main drafters of this document are: Ma Xiaolei, Yun Zhenyu, Li Xun, Hu Liangbing, Zhou Jianmin, Wang Shuanglin, Xu Xin, Xu Shaowen, Liu Fuying, and Shi Gang. Wang Yutong, Zhang Zhihui, Kang Yanni, Yang Jin, Chen Ruihao. Agricultural socialized services, third-party grain drying and storage Service Standards

1 Scope

GB/T 46956-2026 is the Chinese national standard covering the contractor who dries and stores a farmer's grain - the intake sampling and moisture determination that decide what is owed, the drying conditions that must not damage the grain, the storage and its monitoring, and the settlement of losses. Smallholders cannot own a dryer, so this service is what stands between a wet harvest and a spoiled one. First edition, in force since 1 May 2026. It was issued on 28 January 2026 and has been in force since 1 May 2026, as a first edition.

The document is under the responsibility of the Ministry of Agriculture and Rural Affairs. This page is published from the official record of the 2026 edition; the clause text of a standard this recent is not yet in circulation, and the figures, limits and tables it contains are those of the document itself, delivered in full with the English translation.

This document specifies the basic requirements, service procedures and requirements, and service quality improvement for third-party grain drying and storage services. This document applies to grain drying and storage services provided by third parties.

2 Normative references
