Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

This document is Part 116 of GB/T 4706 "Safety of Household and Similar Electrical Appliances". GB/T 4706 has been published as follows part.

- Part 1: General requirements;
- Part 2: Particular requirements for electric irons;
- Part 121. Particular requirements for professional ice cream machines.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed by China Light Industry Federation.

This document is under the jurisdiction of the National Technical Committee for Standardization of Household Electrical Appliances (SAC/TC46).

This document was drafted by: China Household Electrical Appliance Research Institute, China Electric Power Research Institute Co., Ltd., Aupu Home Furnishing Co., Ltd.

Co., Ltd., Guangdong Midea Kitchen and Bathroom Appliance Manufacturing Co., Ltd., Longyan Jinshiyu Electronics Co., Ltd., Qingdao Economic and Technological Development Zone Haier Water Heater Co., Ltd.

Tangshan Kangxin New Energy Technology Co., Ltd., Xin Jiang Pengyu Energy Technology Group Co., Ltd., Hebei Daorong New Energy Technology Co., Ltd., Huanghua Wormande Energy Saving Technology Co., Ltd., Hebei ZERUI ENERGY SAVING NEW ENERGY LIMITED.

The main drafters of this document are: Song Yang, Chen Cankun, Zhang Xinyu, Zhou Liguo, Xiao Yujin, Liu Zhiqiang, Chen Bihua, Zhang Qi, Fu Yu, Jian Pengfei, Zhang Zhaoming, Huang Yong, Qiu Guoyun, Chen Yuzeng, Qin Yu, Zhang Bin, Song Pengfei, Pan Wei, Zhang Cheng, Gong Xu, Sun Gang, Cui Wuli, Ma Renjun, Chou Peng, Xue Daorong, Wang Ye, Cui Jiakun, and Yu Yang.

Introduction

GB/T 4706 "Safety of Household and Similar Electrical Appliances" adopts most of IEC 60335. On this basis, GB/T 4706 refers to The structure of IEC 60335 is divided into several parts, consisting of general requirements and special requirements. Part 1 is general requirements, and the other parts are For products covered by special requirements, their safety requirements are general requirements used in combination with the special requirements.

The requirements include supplements and modifications to the corresponding clauses in the general requirements to provide complete requirements for each product.

This document is the protection requirements for electrical, mechanical, thermal, fire and radiation risks when the appliance is used normally in accordance with the instructions.

This document also covers abnormal conditions that may occur during use and considers how electromagnetic interference may affect the safe operation of the equipment.

This document has taken into account the requirements specified in GB/T 16895 "Low Voltage Electrical Installations". The appliance is connected to the power supply in accordance with the electrical wiring rules. requirements are coordinated.

If multiple functions of an appliance involve other parts of GB/T 4706, the other parts shall apply to the appliance separately as long as it is reasonable.

Each function. If applicable, consider the impact of one function on other functions.

When no additional requirements are given in other parts for hazards already included in this document, GB/T 4706.1 applies.

GB/T 4706 is a standard covering appliance safety and takes precedence over general standards/horizontal standards covering the same subject.

This document is used in conjunction with GB/T 4706.1-2024 "Safety of Household and Similar Electrical Appliances Part 1: General Requirements".

The part marked "applicable" in the document indicates that GB/T 4706.1-2024 "Safety of Household and Similar Electrical Appliances - Part 1: General Requirements" The corresponding clauses in the "Requirements" shall apply to this document; for the parts marked "replace" in this document, the clauses in this document shall prevail;

The "Add" part indicates that in addition to complying with the corresponding clauses in GB/T 4706.1-2024, the additional clauses in this document must also be complied with.

Clause; The part marked "modified" in this document indicates that the corresponding clauses of GB/T 4706.1-2024 are modified.

Safety of household and similar electrical appliances Part 116. Particular requirements for electric heating boilers

1 Scope

This chapter of GB/T 4706.1-2024 is replaced by the following.

This document specifies the safety requirements for electric heating stoves for household and similar purposes.

This document applies to household and similar appliances with a rated voltage not exceeding 250V for single-phase appliances and 480V for other appliances.

An electric heating furnace intended to heat water to a temperature below boiling point.

As far as is practical, the common hazards presented by the various appliances covered by this document are those that are present in the home and its surroundings.

However, in general this document does not consider the following situations.

- The following groups (including children).
- due to a physical, sensory or mental impairment, or - Due to lack of experience and knowledge, Conditions that render them incapable of using the appliance safely without supervision or instruction.
- Condition of children's play equipment.

Note 101. Pay attention to the following.

- For equipment intended for use in vehicles, ships or aircraft, additional requirements may be required;
- The relevant national management departments may impose additional requirements on the equipment;
- National authorities have regulations for the installation of equipment connected to water sources.
