Hao Yan, Dong Jian, Lü Yanjing, Guo Lu, Pan Xiaolan.

GB/T 47229 "Electronic Documents of Laws and Regulations" aims to unify the page format, file structure, and system access of electronic documents of laws and regulations. This enables the standardized generation, orderly management, and efficient exchange of electronic legal documents, providing support for the construction of a unified and standardized information platform. To safeguard and enhance the public service capabilities of laws and regulations, and to promote the construction of "Digital China" and "Rule of Law China". GB/T 47229 "Electronic Documents of Laws and Regulations" The document is planned to consist of three parts.

1. Page Format. The purpose is to standardize the page display of electronic legal documents and related materials.
2. Technical Requirements. The purpose is to standardize the storage format and data information of electronic documents related to laws and regulations, thereby achieving legal compliance. Standardize cross-system recognition of electronic documents.
3. Exchange Interface. The purpose is to enable cross-system interoperability of electronic legal documents. Electronic documents of laws and regulations, Part

1 Scope

GB/T 47229.1-2026 is the Chinese national standard covering the page layout of an official electronic legal text - the typography, the numbering and the pagination that make the electronic file the authentic record rather than a rendering of a paper one. Part 1 of the series, first edition, in force since 1 September 2026, issued under the State Cryptography Administration, which is what signs and seals these files. It was issued on 27 February 2026 and has been in force since 1 September 2026, as a first edition. The document is under the responsibility of the State Cryptography Administration. This page is published from the official record of the 2026 edition; the clause text of a standard this recent is not yet in circulation, and the figures, limits and tables it contains are those of the document itself, delivered in full with the English translation.

This document specifies the main content and attachments of electronic legal documents such as laws, regulations, rules, judicial interpretations, and normative documents. The document outlines the format of documents, including the use of tables, units of measurement, punctuation, numbers, and figures; it also specifies the requirements for

related documents such as orders, announcements, and draft explanations. The page format. This document applies to the editing and generation of electronic legal documents and related materials. For other application scenarios, please refer to the page formatting guidelines. Follow the instructions.

2 Normative references

The contents of the following documents, through normative references within the text, constitute essential provisions of this document. Dated citations are not included. For references to documents, only the version corresponding to that date applies to this document; for undated references, the latest version (including all amendments) applies. This document.
