What this standard covers

This standard specifies the products in the transportation, installation, storage and use of the process may encounter extreme (short-term) environmental conditions. To thousands of different conditions (if any climate protection stationary use, mounted on ground vehicles, and transport) of the product gives a single parameter levels. The classification of the product also takes the degree of restriction in use, from the most strict conditions (eg in a temperature controlled room) conditions to unlimited.

Document data

International classification (ICS): 19.020.

Chinese classification (CCS): A21.

Estimated length of the Chinese original: 10,178 words.

Adopted international standard: IEC 60721-3-0-2002, IDT.

Supersedes the earlier edition GB/T 4798.10-1991.
