Foreword

GB/T 48139-2026 is a recommended national standard (GB/T) of the People's Republic of China, issued on 28 August 2026 by the State Administration for Market Regulation and the Standardization Administration of China, with effect from 1 March 2027.

It is under the responsibility of the Standardization Administration of China.

Classification: ICS 97.220.30; CCS Y55.

1 Scope

This standard addresses the maintenance and repair of sports flooring. Sports floors in gyms, arenas, training halls and school facilities require regular care and sometimes repair to remain suitable for play. The document is intended for facility owners and managers, flooring contractors, maintenance companies, schools and clubs that look after such surfaces.

It takes effect on 1 March 2027. It is a recommended national standard (GB/T), so it is voluntary unless it is written into a maintenance contract or facility policy. A national reference helps owners and service providers agree on what proper upkeep involves and gives a basis for judging contractor work. Readers should consult the full text for the specific practices it describes, as none are summarized here.
