What this standard covers

This standard applies to the nominal AC voltage 6kV ~ 750kV power system generation, transmission, substation, distribution of electrical equipment and rotating motor over-voltage protection and insulation coordination design.

Document data

International classification (ICS): 29.240.01.

Chinese classification (CCS): P62.

Estimated length of the Chinese original: 145,149 words.

Supersedes the earlier edition GBJ 64-1983.
