Table of Contents

1 General
2 Terms
3 Basic requirements for quality management
3.1 General provisions
3.2 Quality policy and quality objectives
3.3 Planning and establishment of quality management system
3.4 Implementation and improvement of quality management system
3.5 Document management
4 Organization and responsibilities
4.1 General provisions
4.2 Organization
4.3 Responsibilities and authorities
5 Human resource management
5.1 General provisions
5.2 Human resource allocation
5.3 Training
6 Construction machinery management
6.1 General requirements
6.2 Construction machinery allocation
6.3 Construction machinery use
7 Bidding and contract management
7.1 General provisions
7.2 Bidding and signing
7.3 Contract management
8 Building materials, structural parts and equipment management
8.1 General provisions
8.2 Procurement of building materials, construction parts and equipment
8.3 Acceptance of building materials, structural parts and equipment
8.4 On-site management of building materials, structural parts and equipment
8.5 Building materials, construction parts and equipment provided by the Employer
9 Subcontract management
9.1 General requirements

9.2 Subcontractor selection and subcontract
9.3 Control of subcontract project implementation process

1 Foreword

GB/T 50430-2017 was issued by State Administration for Market Regulation; Standardization Administration of the PRC on 4 May 2017.

It replaces the earlier edition GB/T 50430-2007.

According to the requirements of "Notice on Printing 'Formulation and Revision Plan for Engineering Construction Standards and Codes in 2013"' (JIANBIAO [2013] No. 6) of Ministry of Housing and Urban-Rural Development (MOHURD), the drafting group has revised this code through conducting extensive investigation and study, carefully summarizing practical experiences, referring to relevant foreign advanced standards and widely soliciting for opinions.

This code comprises of: 1.General Provisions; 2.Terms; 3.Basic Requirements; 4.Organizations and Responsibilities; 5.Human Resource Management; 6.Tender and Contract Management; 7.Construction Machinery and Facilities Management; 8.Construction Materials, Components and Equipment Management; 9.Subcontract Management; 10.Project Quality Management; 11.Project Quality Inspection and Acceptance; 12.Quality Management Inspection, Analysis, Evaluation and Improvement.

The main contents revised in this code are as follows: 1.some terms are added and adjusted; 2.name and structure of some chapters are adjusted, Chapter 12 and Chapter 13 from the first are integrated into one chapter; 3.the inharmonic content was deleted; 4.detail construction drawing design is definitely incorporated into engineering design category; 5.ISO 9001 is supplemented: the newly-added content of "Quality Management Systems - Requirements" standard; 6.suitability and operability of specified requirements are strengthen.

This code is in the charge of Ministry of Housing and Urban-Rural Development. And the specific technical content is under the explanation of China Construction Industry Association. During the process of implementing this specification, the relevant opinions and advices can be posted or passed on to China Construction Industry Association(Address: Kowloon Business Center Block A 7 floor,No.48 Zhongguancun South Street Haidian District,Beijing,100081).

2 Scope Preview

GB/T 50430-2017 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 75,626 other GB/T standards.
