What this standard covers

This standard applies to newly built, alteration, vinyl ester resin anticorrosive design expansion, construction and quality inspection. In order to improve the level of design and construction of vinyl ester resin anticorrosion, anticorrosion strengthen quality control of the construction process to ensure the quality of the vinyl ester resin anticorrosive develop this specification.

Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H11.

Estimated length of the Chinese original: 53,515 words.
