

ICS 83.120
CCS Q 23

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 5351-2005

Replacing GB/T 5351-1985

**Fiber-reinforced thermosetting plastic composites pipe --
Determination of short-time hydraulic failure pressure
(English Translation)**

Issued on: May 18, 2005

Implemented on: December 1, 2005

**Issued by: General Administration of Quality Supervision, Inspection and
Quarantine of the People Republic of China, China National
Standardization Administration Committee**

What this standard covers

This standard specifies: Determination of short-fiber-reinforced thermosetting plastic pipe failure pressure test test, test conditions and equipment, test procedures, calculations, test results, test reports. This standard applies to: reinforced thermosetting plastic pipe in a continuous increase in the internal pressure condition short-term failure pressure test, other composite materials can also refer to the use of the tube.

Document data

International classification (ICS): 83.120.

Chinese classification (CCS): Q23.

Estimated length of the Chinese original: 8,853 words.

Adopted international standard: ASTM D1599-1988 (1995); NEQ.

Supersedes the earlier edition GB/T 5351-1985.
