What this standard covers

This standard specifies the determination of crystallizing point-General method with a double casing method. This standard applies to the determination within the range of -7°C ~ 70°C organic reagent crystallization point of crystallization point.

Document data

International classification (ICS): 71.040.30.

Chinese classification (CCS): G60.

Estimated length of the Chinese original: 6,684 words.

Adopted international standard: ISO 6353-1-1982, NEQ.

Supersedes the earlier edition GB/T 618-1988.
