CCS L 11

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 6346.1-2024

Replacing GB/T 2693-2001

**Fixed capacitors for use in electronic equipment - Part 1:
Generic specification
(English Translation)**

Issued on: March 15, 2024

Implemented on: March 15, 2024

**Issued by: State Administration for Market Regulation, China National
Standardization Administration**

Table of Contents

Preface	
Introduction	
1 Scope	
2 Normative references	
3 Terms and definitions	
4 General requirements	
4.1 Symbols, units and abbreviations	
4.2 Priority values and additional technical requirements	
4.3 Sign	
5 General provisions for test and measurement procedures	
5.1 General	
5.2 Standard atmospheric conditions	
5.3 Drying	
5.4 Storage	
5.5 Mounting (for surface mount capacitors only)	
6 Electrical tests and measurements	
6.1 Insulation resistance	
6.2 Withstand voltage	
6.3 Capacitance	
6.4 Loss Tangent and Equivalent Series Resistance (ESR)	
6.5 Leakage Current	
6.6 Impedance	
6.7 Self-resonant frequency and inductance	
6.8 Capacitance Variation with Temperature	
6.9 Surge	
6.10 High surge current test	
6.11 Charging and discharging test and surge current test	
6.12 Dielectric absorption	
6.13 Voltage transient overload (for non-solid electrolyte aluminum electrolytic capacitors)	
7 Mechanical testing and measurements	
7.1 Appearance and Dimension Inspection	

- 7.2 Outer foil lead
- 7.3 Terminal Strength
- 7.4 Vibration
- 7.5 Collision (repeated impact)
- 7.6 Impact
- 7.7 Shear test
- 7.8 Substrate bending test
- 7.9 Housing seal
- 8 Environmental and climate tests
 - 8.1 Rapid temperature changes
 - 8.2 Climate sequence
 - 8.3 Constant damp heat
 - 8.4 Constant damp heat with applied voltage (for metallized film capacitors only)
 - 8.5 Durability
 - 8.6 Thermal stability test
 - 8.7 High and Low Temperature Characteristics
 - 8.8 Accelerated Constant Moist Heat
 - 8.9 Accelerated Steady State Damp Heat (For Multilayer Ceramic Capacitors Only)
- 9 Tests related to component assembly
 - 9.1 Resistance to welding heat
 - 9.2 Solderability
 - 9.3 Whisker growth test
 - 9.4 Component resistance to solvents
 - 9.5 Marking solvent resistance
- 10 Safety-related tests
 - 10.1 Flame retardancy
 - 10.2 Pressure relief (for aluminum electrolytic capacitors)
- 11 Quality Assessment Procedure
- Appendix A (Informative) Capacitor Pulse Test Guide
- Appendix Q (Informative) Quality Assessment Procedure
- Appendix X (Informative) Comparison of the structure numbers of this document with those of the previous version
- References

Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

This document is Part 1 of GB/T 6346 "Fixed capacitors for electronic equipment". GB/T 6346 has been published in the following parts.

- Part 1: General specification;
- Part 2: Sectional specification for metallized polyethylene terephthalate film dielectric DC fixed capacitors;
- Part 2-1. Blank detail specification for evaluation of metallized polyethylene terephthalate film dielectric DC fixed capacitors Level E and EZ;
- Part 3: Sectional specification for surface mount MnO₂ solid electrolyte tantalum fixed capacitors;
- Part 3-1. Blank detail specification for surface mount MnO₂ solid electrolyte tantalum fixed capacitors, assessment level EZ;
- Part 4: Sectional specification for solid and non-solid electrolyte aluminium capacitors;
- Part 4-1. Blank detail specification for non-solid electrolyte aluminium capacitors, assessment level E;
- Part 5: Sectional specification for selection and test methods for DC mica dielectric fixed capacitors with rated voltage not exceeding 3 000 V General requirements;
- Part 5-1. Blank detail specification for evaluation of DC mica dielectric fixed capacitors with rated voltage not exceeding 3000 V Level E;
- Part 6: Sectional specification for metallized polycarbonate film dielectric DC fixed capacitors;
- Part 6-1. Blank detail specification for metallized polycarbonate film dielectric DC fixed capacitors, assessment level E;
- Part 7: Sectional specification for metal foil polystyrene film dielectric DC fixed capacitors;
- Part 7-1. Blank detail specification Metal foil polystyrene film dielectric DC fixed capacitors Assessment level E;
- Part 8: Sectional specification for Class 1 ceramic fixed capacitors;
- Part 8-1. Blank detail specification Class 1 ceramic fixed capacitors Assessment level EZ;

- Part 9: Class 2 ceramic fixed capacitors;
- Part 9-1. Blank detail specification Class 2 ceramic fixed capacitors Assessment level EZ;
- Part 11: Sectional specification for metal foil polyethylene terephthalate film dielectric DC fixed capacitors;
- Part 11-1. Blank detail specification for evaluation of metal foil polyethylene terephthalate film dielectric DC fixed capacitors Horizontal EZ;
- Part 13: Sectional specification for metal foil polypropylene film dielectric DC fixed capacitors;
- Part 13-1. Blank detail specification for metal foil polypropylene film dielectric DC fixed capacitors for assessment levels E and EZ;
- Part 14: Sectional specification for fixed capacitors for electromagnetic interference suppression in power supplies;
- Part 14-1. Blank detail specification for fixed capacitors for suppression of electromagnetic interference in power supplies, assessment level DZ;
- Part 15: Sectional specification for fixed tantalum capacitors with non-solid or solid electrolytes;
- Part 15-1. Blank detail specification for solid electrolyte foil electrodes tantalum fixed capacitors assessment level E;
- Part 15-2. Blank detail specification for solid electrolyte sintered tantalum fixed capacitors Assessment level E;
- Part 15-3. Blank detail specification for solid electrolyte and porous anode tantalum fixed capacitors assessment level E;
- Part 16: Sectional specification for metallized polypropylene film dielectric DC fixed capacitors;
- Part 16-1. Blank detail specification for metallized polypropylene film dielectric DC fixed capacitors for assessment levels E and EZ;
- Part 17: Sectional specification for metallized polypropylene film dielectric AC and pulse fixed capacitors;
- Part 17-1. Blank detail specification Metallized polypropylene film dielectric AC and pulse fixed capacitors Assessment level E and EZ;
- Part 18: Sectional specification for solid (MnO₂) and non-solid electrolyte aluminium chip fixed capacitors;
- Part 18-1. Blank detail specification for surface mount solid (MnO₂) electrolyte aluminium
