What this standard covers

This standard specifies the stannous chloride reduction of ferric iron after titration using potassium dichromate total iron content in iron ore. This section applies to natural iron ore, iron ore concentrate and build blocks, including sintered products

Document data

International classification (ICS): 73.060.10.

Chinese classification (CCS): D31.

Estimated length of the Chinese original: 14,162 words.

Adopted international standard: ISO 2597-1-2006, MOD.
