## Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

This document replaces GB/T 7407-2015 "Main Maritime Trade Port Codes in China and the World" and is consistent with GB/T 7407-2015.

In addition to structural adjustments and editorial changes, the main technical changes are as follows.

- 183 domestic ports (including Hong Kong, Macao and Taiwan) were added;
- The Chinese or English names of 14 foreign ports were modified;
- Deleted 13 domestic and foreign ports that are obsolete or conflict with GB/T 15514 or UN/LOCODE-2022.2.

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed and coordinated by the National Technical Committee for Electronic Business Standardization (SAC/TC83).

This document was drafted by: National Port Administration Office, Maritime Safety Administration of the People's Republic of China (Maritime Safety Administration of the Ministry of Transport), Guangdong Provincial People's Government Government Port Office, Guangdong Electronic Port Management Co., Ltd., Shandong Electronic Port Co., Ltd., Shandong Port Office, China Standard China Electronic Port Data Center, Shandong Port Group Co., Ltd., Shandong Port Qingdao Port Group Co., Ltd., Qingdao Port International Co., Ltd., North China University of Technology, China University of Metrology, and Fujian University of Technology.

The main drafters of this document are: Luo Weixiong, Wang Zhengyu, Zheng Hongmei, Yuan Hangzhi, Yang Deyou, Wang Feng, Yang Dengliang, Mao Aifeng, Yang Bin, Zhang Yinfen, Zhong Weiling, Ren Lingli, Zhong Weizhen, Zhang Yunling, Xiong Tao, Zhou Yun, Yuan Haixia, Shi Yuntao, Zhao Suhua, Wang Zhimin.

This document and the versions it replaces are released as follows.

- GB/T 7407-1987, GB/T 7407-1997, GB/T 7407-2008, GB/T 7407-2015.

Main water transport ports and related location codes in China and the world

## 1 Scope

This document specifies the coding principles, code structure, code table, and code for major water transport ports and related location codes in China and the world.

Maintenance and management of tables.

This document applies to data exchange and information processing involved in international trade activities.

## 2 Normative references

GB/T 2260

GB/T 2659.1-2022

GB/T 2659.2-2022

GB/T 15514

## 3 Terms and definitions

The following terms and definitions apply to this document.

### 3.1 Port

Ports, airports, stations, cross-border passages, etc. for people, goods, articles and vehicles to enter and exit the country (customs, border).

### 3.2 Related Locations other location

In addition to ports, there are places with customs supervision areas where customs formalities can be handled.

### 4.1 Collection Principles

This standard includes major water transport ports and related locations in China and around the world based on the following basic principles.

- Comprehensive collection of Chinese ports that conduct international trade activities and foreign ports that have trade relations with China;
- Foreign ports whose main function is commercial trade activities are included as much as possible, among which, countries with more developed shipping and more ports are included.

The throughput and berthing capacity of ports are appropriately included in the main ports, and for underdeveloped shipping or small island countries, each country is guaranteed to have at least 1 port included;

- Important river ports and lake ports that can be directly accessed by international container ships are also included;
- Important port areas of China's large ports are also included in this standard.
