What this standard covers

This standard specifies the paint solvent distillation range measurement principle, equipment, testing procedures, results calculation and precision. This standard applies to paint solvent distillation range determination. This standard also applies to the solution of diluent mixture Determination of boiling range.

Document data

International classification (ICS): 13.300.

Chinese classification (CCS): A80.

Estimated length of the Chinese original: 13,168 words.

Adopted international standard: DIN 53171-1991, IDT.

Supersedes the earlier edition GB/T 9283-1988.
