Foreword

GB/T 9833 "Pressed" is divided into nine sections.

--- Part 1. Flower brick tea;

--- Part 2. black brick;

--- Part 3. Fu tea;

--- Part 4. Kang brick tea;

--- Part 5. Tuocha;

--- Part 6. tea tight;

--- Part 7. golden tip tea;

--- Part 8. m brick;

--- Part 9. brick tea. This part of GB /Part 9 T 9833's. This section drafted in accordance with GB/T 1.1-2009 given rules. This Part replaces GB/T 9833.9-2002 "brick tea brick tea."

Compared with GB/T 9833.9-2002, major technological changes as follows:

--- Deleting physical and chemical indicators in Note 1, the physical and chemical indicators of water extracts to determining indicators;

--- Health indicators using GB 2762 "contaminants in food limited", GB 2763 "national food safety standards for pesticides in food Maximum Residue Limits "and GB 26130" food paraquat and other 54 kinds of pesticide maximum residue limits "requirement, instead of defunct GB 9679-1988 "tea health standards";

--- Judgment rule to the project according to the requirements of Chapter 4, any one of non-compliant products as unqualified products. This part is proposed by the China Federation of Supply and Marketing Cooperatives. This part of the National Technical Committee of Standardization Tea (SAC/TC339) centralized. This section was drafted by: China Federation of Supply and Marketing Cooperatives Hangzhou Tea Research Institute, China Tea Circulation Association, Hubei zhaoliqiao tea factory Ltd., Hunan Tea Co., Ltd., Zhejiang Camel Wuyi Kowloon brick Limited. The main drafters of this section. Weng Kun,

Yangxiu Fang, Wang, Renxue Tao, Xi-end, more than willing to Ping, Zhou Chong Wang, Yin Chung, Zhuya Song, Zhang Yali. This part of the standard replaces the previous editions are.

--- GB/T 9833.9-1993, GB/T 9833.9-2002. Pressed Part 9. brick tea

1 Scope

Part 9 of China's national standard for compressed tea, covering qing zhuan or green brick tea. Green brick is Hubei's contribution to the compressed tea trade, made around Chibi and Xianning from lao qing cha - old green tea, meaning coarse mature leaf and stem picked late, which would be worthless as a loose tea and is exactly what a brick wants. It was the tea of the northern overland route: pressed in Hubei, carried through Shanxi to Mongolia and on into Siberia, where it fed a trade that ran for two centuries and gave the Russian word for tea its Chinese root. The brick is hard, dark and made to survive that journey, and it is drunk boiled with milk. Its production is the shortest of the family - the old green tea is steamed, pressed and dried, without the long piling of the Hunan dark teas. This part specifies the requirements, test methods, inspection rules, marking, labelling, packaging, transport, storage and shelf life for green brick tea, completing the nine-part series.

GB/T 9833 provisions of this part of the brick tea requirements, test methods, inspection rules, marking, labeling, packaging, transportation, storage and security Shelf. This section applies to the old green tea as the main raw material, brick tea after vapor pressure developing type, drying, product packaging and other processes made.
