Foreword

This guidance technical document was drafted in accordance with the rules given in GB/T 1.1-2009. Please note that some content of this document may involve patents. The issuer of this document does not assume responsibility for identifying these patents. This guidance technical document is proposed and managed by China National Institute of Standardization. This guidance technical document was drafted by: Dong Ejiao Co., Ltd., Shandong Institute of Standardization, Liaocheng University, Shandong Donggehei Donkey Animal Husbandry Technology Co., Ltd., Inner Mongolia Dong'e Black Donkey Animal Husbandry Co., Ltd., Shandong Academy of Agricultural Sciences, Qingdao Agricultural University, Northwest Agriculture and Forestry University of Science and Technology, Institute of Animal Science, Xinjiang Academy of Animal Science, China Light Industry Management Center, Shandong Center for Disease Control and Prevention. The main drafters of this guidance technical document. Zhou Xiangshan, Shen Shanyi, Zhang Jie, Ji Chuanliang, Yu Jie, An Jie, Hao Xianghui, Liu Guangyuan, Liu Guiqin, Duan Xiaobo, Guo Shangwei, Hu Yuanling, Wang Dongliang, Qu Honglei, Zhang Xiangyang, Wang Changfa, Sun Yujiang, Lei Chuchao, Xiao Haixia, Yang Xiaoming, Zhao Jinshan, Zhang Guoliang.

In order to better implement the basic strategies of targeted poverty alleviation and targeted poverty alleviation, Shandong Province took the opportunity of structural reform on the animal husbandry supply side to explore The poverty alleviation model of the donkey industry has emerged. This model establishes the "upstream The whole industry chain service system and technology system of "developing excellent varieties and technologies, midstream export services, downstream guarantee market", and absorbing the poor people who have established archives Obtain income in the form of participation in management,

employment and entrepreneurship, asset custody, etc. After practice, the donkey industry poverty alleviation model was selected by the State Council Poverty Alleviation Office A pilot promotion model for the industry's precise poverty alleviation. In order to better help to overcome poverty and help the majority of farmers and herdsmen to get rid of poverty and become rich, a pilot model of accurate donation industry poverty alleviation was replicated and promoted nationwide This guideline technical document is specially formulated. This guidance technical document can be used for reference in the operation and management of donkey industry poverty alleviation projects. Precise poverty alleviation donkey industry project operation and management standards

1 Scope

GB/Z 38767-2020 is the Chinese national standard on targeted poverty alleviation - specification for operation management of donkey industry project, in the field of services and company organization. The /Z suffix marks it as a guiding technical document: it does not prescribe requirements that can be certified against, but sets out the technique, the method or the state of the art that the standards bodies recommend following. It was issued on 28 April 2020 by the State Administration for Market Regulation; Standardization Administration of China. As a guiding technical document it carries no separate date of entry into force: it applies from publication. Classification: ICS 03.100, CCS A00. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This guiding technical document stipulates the project conditions, division of responsibilities, project organization and operation, capital investment and achievement of the donkey industry poverty alleviation project Effectiveness analysis, project risk prevention measures, project evaluation and management, etc. This guidance technical document is applicable to the standardized operation and management of donkey industry poverty alleviation projects.

2 Normative references
