GB /Z 41226 General requirements for socialized services for agricultural technology extension

3 Terms and Definitions

Terms and definitions defined in GB /Z 41226 apply to this document.

4 Evaluation methods

The evaluation of the effect of socialized service of agricultural technology extension can use a combination of subjective evaluation and objective evaluation.

---Subjective evaluation can use the questionnaire survey method, and the service object will subjectively score the effect of agricultural technology extension socialization service.

---For objective evaluation, statistical analysis method can be used, and relevant departments shall calculate the number of indicators of local economy and ecology before and after the promotion of agricultural technology. changes in value.

5.1 Subjective evaluation indicators

5.1.1 Service Conditions Evaluation is carried out from the aspects of service personnel structure, service facilities and equipment, service place and environment of service organization.

5.1.2 Service attitude It is evaluated from the aspects of whether the service organization is enthusiastic, patient and careful in the process of promoting agricultural technology.

5.1.3 Service Content The evaluation is made from the aspects of the advancement,

applicability, practicability and economy of the agricultural technology promoted by the service organization.
