Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for Standardization Work Part

1. Structure and Drafting Rules of Standardization Documents" drafted. Please note that some content of this document may be patented. The issuing agency of this document assumes no responsibility for identifying patents. This document is proposed and managed by China National Institute of Standardization. This document is drafted by: Beijing Nordson Cloud Network Technology Co., Ltd., Beijing Shuzhi Technology Co., Ltd., China Poverty Alleviation Volunteer Service Promotion Jinhui, Beijing Xingou Credit Management Co., Ltd., Qinghai Provincial Rural Revitalization Bureau, and Jiangxi Provincial Rural Revitalization Bureau. The main drafters of this document. Lin Chengming, Zhang Jinghui, Wang Cheng, Wang Sitong, Liu Xiaolin, Wang Jing, Li Jingwei, Li Zhi, Sun Ke, Meng Wenke, Tian Limin, Zhou Ziyue, Sun Yi, Cui Kai, Ge Yanqing, Xu Guolin.

By the end of 2020, the national poverty alleviation goals and tasks have been successfully completed, and absolute poverty has been eliminated, but poverty alleviation is not the end. It is also necessary to do a good job in consolidating and expanding the achievements of poverty alleviation and effectively linking various tasks with rural revitalization, so that the foundation of poverty alleviation will be more consolidated and the results will be more effective. sustainable. Formulate the credit file information specification of the aided enterprises, aiming to use credit as the starting point to assist the dynamic monitoring of industrial aid projects and promote The recipients of assistance will increase their income levels through entrepreneurship and employment, consolidate and expand the achievements of poverty alleviation, and promote the economic development of poverty-stricken areas. The objects of assistance refer to the recipients of poverty alleviation within the scope of the original national poverty alleviation work. Through the establishment of credit files, we can build trust and increase credit for the aided objects, meaning profound and significant. The credit file information items of the aided enterprises include basic information items, main business management information items, financial information items, borrowing Credit information items, public credit information items, third-party credit evaluation information items, etc. The credit file information of the aided

enterprises comes from the collected main entities, institutions of interest to them, relevant government departments, and other institutions and individuals. This document provides the concept information of credit archives. During the implementation of this document, consult the latest standard documents corresponding to relevant information items. documents, as well as standardized documents implemented by information systems for data exchange with information systems to which this document is applied, are to ensure the implementation of this document The system can carry out lossless data exchange with related information systems, and when performing related big data analysis, minimize the need for data conversion. An important measure of data distortion. Information Specification for Credit File Information of Assisted Enterprises

1 Scope

GB/Z 41687-2022 is the Chinese national standard on assistance object - specification for the information of enterprise credit files, in the field of services and company organization. The /Z suffix marks it as a guiding technical document: it does not prescribe requirements that can be certified against, but sets out the technique, the method or the state of the art that the standards bodies recommend following. It was issued on 12 October 2022 by the State Administration for Market Regulation; Standardization Administration of China. As a guiding technical document it carries no separate date of entry into force: it applies from publication. Classification: ICS 03.080.99, CCS A02. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This document establishes the basic principles for establishing the credit archives of assisted enterprises, specifies information classification, information sources and information items, and gives Provided the standard verification instructions for the credit file information of the assisted enterprises. This document is applicable to the work of the national rural revitalization department and other relevant institutions to establish the credit file information of the enterprises targeted for assistance.
