What this standard covers

This standard specifies a high-performance liquid chromatography-evaporative light scattering detection method for the determination of 10 oligosaccharides such as sucrose, turanose, maltulose, maltose, kojibiose, isomaltose, glucopyranosylsucrose, melezitose, raffinose and maltotriose in honey, honey products and honey water. This standard is applicable to the determination of the content of 10 oligosaccharides in honey, liquid honey products and honey water.

Document data

International classification (ICS): 67.108.10.

Chinese classification (CCS): X04.

Estimated length of the Chinese original: 9,921 words.

Supersedes the earlier edition GH/T 1316-2020.
