9.4 Detection and control of pests and diseases

1 Foreword

GH/T 1477-2024 was issued by All-China Federation of Supply and Marketing Cooperatives on 17 December 2024.

It has been in force since 1 June 2025.

The GH/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This document establishes the procedure for cultivating Sanghuang on short-segment wood, specifying the requirements for the production environment and facilities, pre-production preparation, mycelium segment preparation, and yellowing tubes. Requirements related to management, overwintering, harvesting and drying, pest and disease control, and production records. This document applies to the cultivation of short sections of Sanghuang wood.

GH/T 1477-2024 falls under ICS 65.020.20, in the field of agriculture.

This catalogue holds 78 other GH/T standards in that field.

In this catalogue, GH/T standards carry edition years from 1998 to 2026.
