What this standard covers

This standard specifies the production requirements for TV drama masters using 4K ultra-high-definition format, including duration, signature, image, sound, subtitles, packaging format and technical quality requirements, and specifies the subjective evaluation method of sound and picture quality. This standard applies to the master production and exchange of 4K ultra-high-definition TV dramas between TV drama production organizations, copyright holders and broadcasting and publishing organizations.

Document data

Estimated length of the Chinese original: 24,296 words.

Supersedes the earlier edition GY/T 357-2021.
