1 Foreword

HAD 00208-2022 was issued by State Nuclear Safety Administration on 21 November 2022 and took effect the same day.

2 Scope

This standard is applicable to the formulation of emergency action levels of PWR nuclear power plant operators, and can be referred to for the formulation of emergency action levels of other nuclear facilities. This standard specifies the general method for formulating the emergency action level of the operating organization of the PWR nuclear power plant, mainly including: (1) Basic requirements for formulating the emergency action level; (2) Initial condition matrix; (3) Example of the emergency action level.

3 About this standard

Issued by: State Nuclear Safety Administration

English translation: about 34 pages

Chinese original: about 51,566 characters

4 Classification and status

Prefix HAD: nuclear safety guide.
