1 Foreword

HB 8650-2022 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 8 April 2022 and has been in force since 1 October 2022.

The HB prefix, without a suffix, marks a mandatory standard: within its scope, compliance is required.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the basic requirements and evaluation methods that units engaged in civil helicopter production activities within the territory of the People's Republic of China should possess. This standard applies to the evaluation, construction and management of basic conditions for civil helicopter production units engaged in commuter transportation, forest fire prevention, medical rescue, emergency and disaster relief, agriculture, forestry and fishery, construction operations, geological exploration, tourism and aerial photography, etc. Sports helicopter production units and civil rotorcraft production units may refer to this
