1 Foreword

HB 8660-2022 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 8 April 2022 and has been in force since 1 October 2022.

The HB prefix, without a suffix, marks a mandatory standard: within its scope, compliance is required.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the test purposes, test items, test procedures, test methods and other requirements for widespread fatigue damage testing of civil aircraft structures. This standard is applicable to fatigue testing of metal structures of civil aircraft and can be used as a reference for other aircraft structures.

HB 8660-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 171 other HB standards.
