1 Foreword

HB 8674-2020 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 31 August 2020.

The HB prefix, without a suffix, marks a mandatory standard: within its scope, compliance is required.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the design, production, compliance verification test, transportation and storage of total pressure and total static pressure sensors for civil transport aircraft, general-purpose aircraft, and special aircraft. This standard is applicable to the development, production, compliance verification test and delivery of total pressure and total static pressure sensors for civil aircraft. Sensors for other aircraft can be used as a reference.
