1 Foreword

HB 8725-2023 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 20 December 2023 and has been in force since 1 July 2024.

The HB prefix, without a suffix, marks a mandatory standard: within its scope, compliance is required.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the requirements for long-term storage of aviation product data information system architecture, information packages and data flows, functional modules and quality control. This standard applies to the development of long-term storage information systems for aviation product three-dimensional model data.

HB 8725-2023 falls under ICS 49.040, in the field of aircraft and space vehicle engineering.

This catalogue holds 64 other HB standards in that field.

In this catalogue, HB standards carry edition years from 2012 to 2025.

3 About this standard

Sector: Aviation Industry Standard

Issued by: Ministry of Industry and Information Technology of the People's Republic of China

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

HB 8728-2023 - Data visualization requirements for long-term storage of aviation product data

HB 8727-2023 - Data conversion requirements for long-term storage of aviation product data

HB 8726-2023 - Long-term storage and retrieval process of aviation product data

5 Classification and status

International classification (ICS): 49.040

Chinese Standard Classification (CCS): V 96

Prefix HB: mandatory standard.
