1 Foreword

HB 8734-2023 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 20 December 2023 and has been in force since 1 July 2024.

The HB prefix, without a suffix, marks a mandatory standard: within its scope, compliance is required.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the general requirements, detailed technical requirements and test verification requirements for cabin-type ground control stations for light and small fixed-wing civilian unmanned aerial vehicle systems. This standard is applicable to cabin-type ground control stations of fixed-wing UAV systems with an empty weight of 7kg to 116kg and a maximum take-off weight of no more than 150kg. Other UAV system ground control stations can refer to this implementation.

HB 8734-2023 falls under ICS 49.020, in the field of aircraft and space vehicle engineering.

This catalogue holds 64 other HB standards in that field.

In this catalogue, HB standards carry edition years from 2012 to 2025.

3 About this standard

Sector: Aviation Industry Standard

Issued by: Ministry of Industry and Information Technology of the People's Republic of China

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB 42590-2023 - Safety requirements for civil unmanned aircraft system

HB 8737-2023 - Autonomous control level requirements for civil unmanned aerial vehicle systems

HB 8736-2023 - General requirements for civil vertical takeoff and landing fixed-wing unmanned aerial vehicle systems

HB 8733-2023 - Horizontal measurement method for small and medium-sized fixed-wing UAVs

5 Classification and status

International classification (ICS): 49.020

Chinese Standard Classification (CCS): V 36

Prefix HB: mandatory standard.
