What this standard covers

This standard specifies the fixed thin steel tube plate and tube heat exchanger type, the main parameters, structure, size, manufacture, use and installation requirements. This standard applies to the nominal heat transfer area of $1.0 \text{ m}^2 \sim 365 \text{ m}^2$, nominal pressure of $0.6 \sim 2.5 \text{ MPa}$ fixed thin steel tube plate and tube heat exchanger.

Document data

International classification (ICS): 71.12.

Chinese classification (CCS): G93.

Estimated length of the Chinese original: 61,698 words.
