### What this standard covers

This standard specifies the visual mirror glass level gauge of the type, size, technical requirements and instructions for use. Depending mirror glass level gauge (pressure) There are six models, the design temperature should be less than equal to 250°C, only for pressure (0. 0 ~ 0. 1MPa), corrosion allowance specified in Table 1. 0. 1.

### Document data

International classification (ICS): 71.12.

Chinese classification (CCS): G91.

Estimated length of the Chinese original: 6,648 words.
