What this standard covers

This standard specifies the magnetic level gauge type, parameters, technical requirements and regulations on the use. This standard applies to PN 1. 6MPa ~ 16. 0MPa, operating temperature -40-3000°C, liquid density greater than 0. 45g/cm³, liquid viscosity of less than 150cP; chemical, petrochemical, pharmaceutical and other industries equipment monitored by magnetic level gauge.

Document data

International classification (ICS): 71.12.

Chinese classification (CCS): G91.

Estimated length of the Chinese original: 14,168 words.
