What this standard covers

This standard specifies the method for the extraction and determination of total phosphorus and phosphorus TSP's. This standard applies to the determination of total phosphorus and phosphorus content of triple superphosphate.

Document data

International classification (ICS): 65.08.

Chinese classification (CCS): G20.

Estimated length of the Chinese original: 3,351 words.

Adopted international standard: ISO 7497-1984, NEQ; ISO 6598-1985, NEQ.
