**Granular Triple Superphosphate - Determination of the Mean
Compressive Strength of Particles**

粒状重过磷酸钙的颗粒平均抗压强度测定

(English Translation)

Issued on: November 15, 1991

Implemented on: July 1, 1991

Issued by: MIIT

What this standard covers

This standard specifies the method for measuring the compressive strength of the granular particles of average weight had acid calcium. This standard applies to heavy granular acid calcium particles had an average compressive strength determination.

Document data

International classification (ICS): 65.08.

Chinese classification (CCS): G20.

Estimated length of the Chinese original: 2,231 words.
