### What this standard covers

This standard specifies the technical requirements of injection molding or extrusion of polyamide resin 1010, test methods, inspection rules and signs, packaging, transportation and storage requirements. This standard applies to sebacic acid and salt decamethylenediamine made ??as raw material, obtained by polycondensation of poly sebacamide decamethylenediamine (1010 polyamide) resin.

### Document data

International classification (ICS): 83.04.

Chinese classification (CCS): G32.

Estimated length of the Chinese original: 5,585 words.

Supersedes the earlier edition HG 2-869-1976.
