What this standard covers

This standard specifies the determination of polyethylene terephthalate glycol ester has been the method of viscosity poly butylene terephthalate esters and their copolymers in dilute solution viscosity number and characteristics.

Document data

International classification (ICS): 83.080.01.

Chinese classification (CCS): G31.

Estimated length of the Chinese original: 8,899 words.

Adopted international standard: ISO 1628/5-1986, IDT.

Standards quoted by this document
